

## Andrewsfield Pre flight Covid -19 questionnaire

The following is a list of suggested discussion points that the instructor and student/member ask of each other to ensure that both parties can make an informed decision as to whether they wish to proceed with flying with the other person.

Yes      No

1. Have you, or anyone in your immediate household, experienced any symptoms in the last 2 weeks that might be Covid-19 ?
2. Have you, or anyone in your immediate household, been tested for Covid-19, and if so why and what was the result?
3. Have you, or anyone in your immediate household, had close contact (15mins or more) outside the household (less than the 2m social distancing) in the last 7 days?
4. Have you, or anyone in your immediate household, been on public transport in the last 7 days?
5. Have you, or anyone in your immediate household, been working with members of the public in the last 7 days?
6. Are you still working and if so what precautions do you take when at work (e.g. PPE, social distancing, working from home)?

Based on our discussion and the answers given to the above points I am happy to proceed with the flight.
